EDUCATION

COMPUTER SCIENCE KMU(DAEGU, KR), DIGIPEN(Redmond, WA)

TECHNICAL SKILLS

PROGRAMMING LANGUAGES: C++

ENGINES: CUSTOM ENGINE

INTERPERSONAL SKILLS: STRONG COMMUNICATION, PROBLEM-SOLVING, TEAM COLLABORATION

LEADERSHIP EXPERIENCE

DEPARTMENT TREASURER, KMU (Mar 2025 – Present)

PROJECTS EXPERIENCE

■ ART LEAD, RAILCHU (Sep 2024 – Dec 2024)

Led the visual direction for a 2D train-themed room-escape puzzle game. Created environmental art, puzzle props, hint visuals, and interactive assets across four rooms. Designed visual feedback elements to improve puzzle clarity, player guidance, and immersion.

■ DESIGN LEAD, OMG Corp. (Mar 2025 – Jun 2025)

Led the core concept and gameplay structure for a point-and-click tycoon survival game. Designed the daily task flow, random seat system, workload management, and minigame progression. Maintained consistency between the office survival theme, mechanics, and visual direction.

■ ART LEAD, QA, No.99 (Sep 2025 – Present)

Led the overall visual design, atmosphere, character direction, UI visuals, and art consistency for a side-scrolling action-exploration game. Conducted QA testing to improve player clarity, usability, and gameplay flow. Applied feedback to refine design decisions and polish the game from the player's perspective.
